

FEATHER OF ELEMENTAL DISCORD

LEGENDARY ARTIFACT | SPELLCASTING FOCUS | MAGE

A prism-plumed feather that shivers whenever magic meets something it cannot harm.

ARTIFACT POWER

(1/round) When you discover that a creature has Resistance or Immunity to your spell's damage, spend 1 mana to change its damage type.

Against a Dragon, suppress that Resistance until the end of your next turn.

CROWN OF THE HIGHER SKY

LEGENDARY ARTIFACT | CROWN | MAGE

A circlet of weightless pinions that recognizes no throne beneath the clouds.

ARTIFACT POWER

After casting a tiered spell, fly 2 spaces for free. If it targeted a flying creature, fly up to half your Speed instead.

If it targeted a Dragon, you may end adjacent to it and gain Resistance to its damage until your next turn.

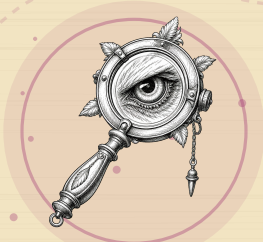

The highest sky has only one sovereign.

EYE OF THE ROC-SAGE

LEGENDARY ARTIFACT | ARCANE LENS | MAGE

Within this golden eye, every weakness looks as vast as prey beneath a roc.

ARTIFACT POWER

(1/encounter) Assess with Arcana for free. Your next spell against that creature gains advantage, or its target rolls its save with disadvantage.

When you Assess a Dragon, ask 1 additional question.

Nothing escapes the gaze above.

SKYBINDING FOCUS

LEGENDARY ARTIFACT | SPELLCASTING FOCUS | MAGE

Its hooked feathers seize the invisible laws that permit wings to rise.

ARTIFACT POWER

When your spell damages a flying creature, spend 1 mana to force it to land in the nearest safe space. It cannot fly until the end of its next turn.

Dragons remain grounded for 1 additional round.

Even tyrants of the sky must fall.

TALON OF UNMAKING

LEGENDARY ARTIFACT | ARCANE TALON | MAGE

A blackened claw whose shadow finds the seam in every shield, shell, and scale.

ARTIFACT POWER

When your spell damages an armored creature, spend 2 mana to reduce its Armor one step until the start of your next turn:

Heavy > Medium > None

Against a Dragon, it lasts until the end of its next turn.

Armor reduction does not stack with itself.
